## INTRODUCTION

Chrysolite Foundation is an NGO set to advance the welfare of the future generations through empowerment and education. We began our work in December 2019 and have since then been committed to reaching out to people both within our individual space and as a team.

### OUR VISION:

- To give a voice, empower, share new perspectives and ultimately touch and save lives.

### OUR MISSION:

- To create a movement and empowerment strategy for the total man.
- To assist in the educational advancement and the general welfare of the future generation

### OUR TARGET AUDIENCE:

- Less privileged children
- People in marginalized communities

However, our target audience may diversify from time to time

### OUR CORE VALUES:

- The passion to love
- The dignity and value of every person

# The journey so far:

**2019**

In December 2019 when we began our work, we started with a 2-day project. The first day was a workshop with residents of Chesire home, Sango, Ibadan where we taught the craft of paper bags. The second day was a visit to a juvenile home in Sango, Ibadan where we donated basic foodstuff and clothing.

In 2019, we started a One meal challenge, which was a way of generating funds. This challenge allowed people to send to us whatever amount they spent on one meal. After careful consideration, we decided to make it a consistent challenge every month

**ONE MEAL CHALLENGE** 

Chrysolite foundation is an up starting foundation seeking to reach out to single mothers, orphans, the abused, juvenile children and students.

**About the One Meal Challenge**  
One Meal Challenge is simply setting aside the amount you spend on a meal and be part of the stories we are writing by partaking in the one meal challenge

FOR ENQUIRIES AND SPONSORSHIP CALL: ESTHER 0909283132 & EUNICE: 09021449504  
PAYMENT DETAILS: YISA JOSEPHINE BOYE  
ACCESS BANK : 0824608086

## **2020**

At the beginning of the year 2020, we recruited a few more volunteers as we intended to teach public secondary school students in Ibadan in preparation for the WASSCE(WEST AFRICAN SECONDARY SCHOOL CUNCIL EXAMINATION) but we were informed that the new governor had just set up a plan for that.

We started a plan in March to teach the children in Juvenile homes how to read and write, however this was cut short because of the pandemic. However, because we are a team with a goal, despite all the challenges, we spent the time at home doing team building exercises. We simulated situations and made plans for many more projects to come.

Following the pandemic, we were spurred to embark on a different kind of outreach and in December, we gave out foodstuff to over 70 people in a community in Odo-Osun, Berre, Ibadan.

## **2021**

By the year 2021, we had started to understand the NGO space better and continued to stay committed to advancing the welfare of the future generations through empowerment and education.

### **March**

In March, we embarked on a literacy program with the children of Chesire home, Sango, Ibadan (a home that has become an adopted home for the organization). This program that spanned 4 weeks was aimed at teaching the younger children how to read and write and helping the older children prepare for life outside the home.

## September

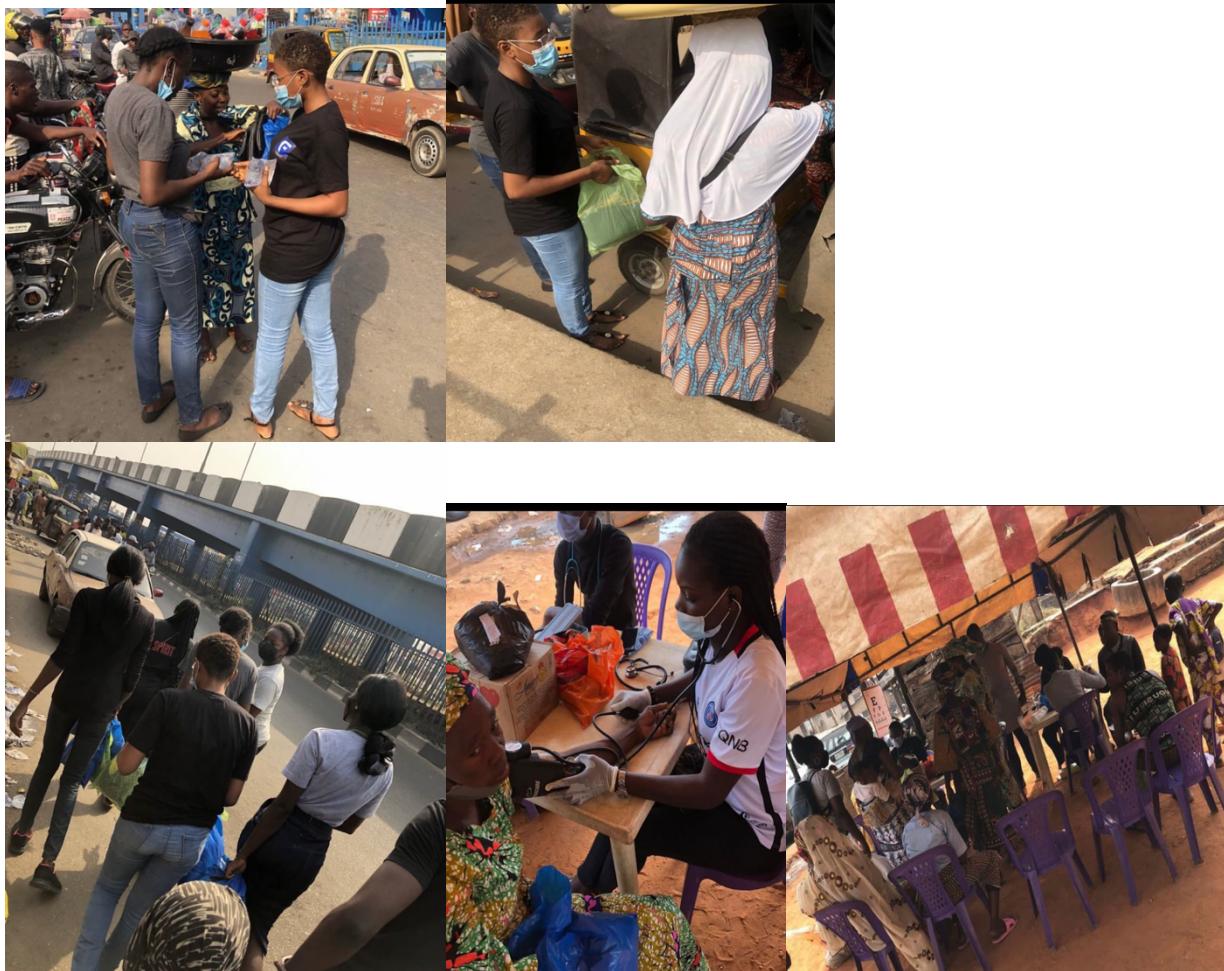

In September, we launched the annual “back to school outreach”. This outreach is aimed at encouraging children and parents in marginalized and low income communities to get interested in school. In 2021, we gave school essentials (bags, water bottles, books, stationery and socks) to fifty (50) students in a community school in Eruwa, Oyo state.

## December

In celebration of our anniversary, we tend to explore outreaches that are different from our typical outreaches. In 2021, we embarked on a two-day outreach. The first day was a clothe drive. For this outreach, we gave out softly used clothes (that were donated) to 20+ people along the streets of Mokola, Roundabout and Sabo, Ibadan.

The second day was a medical outreach with over 30 residents of Odo-Osun, Berre Ibadan (a community that became an adopted community for the organization).

## 2022

### June

In June, we organized a career talk and had career discussions with the children living with disabilities at Chesire home, Sango, Ibadan. We invited professionals including Nigeria's first blind DJ to share opinions on the various career opportunities available regardless of the limitations.

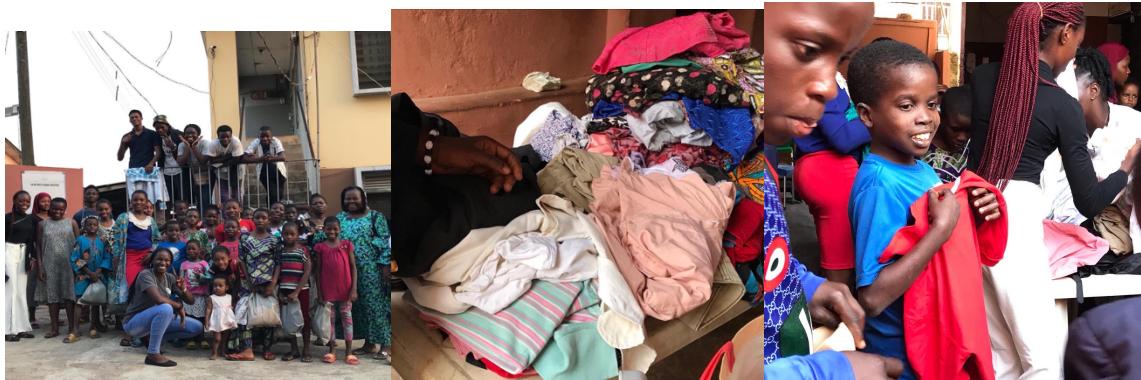

### September

For the second edition of the annual “back to school” outreach, in September 2022, we gave school materials to over 40 students in a community school in Ogeye, Ibadan.

## **December**

For our anniversary in 2022, we visited the Living Word Missions home, Okebola, Ibadan for a clothe drive with over 20 children.

## **2023**

### **February**

For Valentine, we visited the children of Living Word Missions Home. This outreach was following a realization that children who feel loved and special are easier to teach and empower. We spent the Valentine celebration with over 20 children as we talked, played games, ate and gave out gift bags.

# AS THE FOUNDATION EXPANDS:

We have been committed to the business of empowerment and education for the last 3+ years. Going forward, we are looking to build sustainable and long-term structures for empowerment and education and we are excited to have you onboard..
